

MIDDLE EAST STEEL MARKET RESEARCH

DEMO-VERSION

2010

Annotation

The report contains analysis and forecast of the Middle Eastern steel & steel products market.

The countries under research are: Jordan, Iran, Qatar, Lebanon, UAE, Saudi Arabia, and Syria.

The products under research are: steel slab and billet, hot-rolled sheet and coil, hot-rolled plate, cold-rolled sheet and coil, coated products, rebar, wire rod, and sections.

Considered consuming industries include energy, construction, mechanical engineering, automotive, shipbuilding, domestic appliances, tubes & pipes.

Annual indices of the Middle Eastern countries' markets have been observed since 2000, the forecast was made for 2010-2015.

This report is distinguished from analogs by presence of production, trade and consumption data by product in the concerned countries, producers' capacity expansion plans for each product, reasonable forecast of the markets' prospects, and highlighting of the most attractive markets for each product supplies.

The report consists of five sections. In the first section "Economic forecast for the region as a whole and for each country" the countries' economic circumstances and prospects are considered. In addition steel consumption is analyzed in conjunction with key macroeconomic indices.

The structure of steel product production and consumption is specified in the second section "Steel and steel product output and consumption, in the region as a whole and in each country". Steel producers of each country are represented in details. Their expansion (modernization) plans are considered. The dynamics and forecast of steel & steel products production and consumption are given.

The third section "Foreign trade balance and forecast of changes in market balance, for the region as a whole and for each country" contains analysis and forecast of the countries' trade balance for each product under research.

The fourth section "Analysis and forecast of steel product consumption by industries, for the region as a whole and for each country" includes estimate of steel product consumption structure by industries specified above. All the consuming industries with high demand and growth potential are described in details for each country, and the major consumers are specified. The forecast of the consumption growth is made for each industry and country.

Section five "Analysis and forecast of steel product consumption, for the region as a whole and for each country" contains dynamics and forecast of consumption and net import by product for each country. Countries with strong demand for flat and long products are defined. Steel products of high potential demand growth are highlighted.

Used information sources are Metal Expert, customs statistics, companies' and associations' news and reports.

The report contains 133 pages, 124 tables and 48 charts.

The report language is English.

Table of contents

1. Economic forecast for the region as a whole and for each country	11
General information about the countries under consideration	11
Forecast of key macroeconomic indices: population, GDP, financial indicators	11
Consumption per capita	13
SWOT-analysis of the region.....	14
2. Steel and steel product output and consumption, in the region as a whole and in each country .	15
Steel production	15
Steel consumption.....	16
Balance of steel production and consumption: current situation	18
Steel consumption outlook. Forecast modeling. Several alternative scenarios of changes in the relevant markets	19
Conclusions.....	21
Forecast of basic steel product consumption	26
Forecast of steel/steel products production.....	29
Analysis of competitive environment: capacities and development plans of the main competitors, potential new players, potential mergers and takeovers	31
Jordan.....	31
Iran	32
Qatar.....	39
Lebanon.....	40
The United Arab Emirates	41
Saudi Arabia.....	45
Syria	48
3. Foreign trade balance and forecast of changes in market balance, for the region as a whole and for each country	51
Factors influencing market balance	51
Semi-products	54
Square billet	55
Slabs.....	55
Long products	56
Rebar	57
Wire rod	57
Sections.....	58
Flat products.....	59
HR coil/sheet.....	60

HR plate	60
CR coil/sheet.....	61
Coated products	62
Market balance forecast making	63
4. Analysis and forecast of steel product consumption by industries, for the region as a whole and for each country	66
Current consumption of basic steel products by industry.....	66
Fast-growing industry operations map. Brief overview of main potential consumers.....	79
Jordan.....	79
Lebanon.....	84
Syria.....	89
United Arab Emirates	97
Saudi Arabia.....	103
Qatar.....	108
Iran	113
5. Analysis and forecast of steel product consumption, for the region as a whole and for each country	123
Current steel product consumption structure: by countries and by products.....	123
Countries with strong demand for long products.....	127
Countries with strong demand for flat products	127
Forecast of the regional steel products consumption.....	128
Jordan.....	128
Iran	129
Qatar.....	130
Lebanon.....	130
UAE	131
Saudi Arabia.....	132
Syria.....	133

List of tables

Population, million people	12
GDP, current prices, \$ billion	12
GDP growth,%	12
Inflation, consumer prices for the end of period.....	12
Steel consumption per capita, kg	13
Relation between steel consumption per capita and GDP per capita.....	13
Production of steel, thousand tonnes	15
Steel production by types, thousand tonnes	16
Steelmaking capacities, ‘000 tonnes	16
Steel consumption, ‘000 tonnes	17
Total cost of ongoing projects in 2010, bln \$	17
Steel production and consumption balance, ‘000 tonnes.....	18
Steel products capacities, thousand tonnes	19
Forecast of steel consumption (realistic scenario), ‘000 tonnes	22
Estimation of spending on steel in GDP, %	24
Forecast of steel consumption (pessimistic scenario), ‘000 tonnes	25
Dynamics and forecast of long product consumption, ‘000 tonnes.....	27
Dynamics and forecast of flat product consumption, ‘000 tonnes.....	27
Dynamics and forecast of rebar consumption, ‘000 tonnes.....	27
Dynamics and forecast of wire rod consumption, ‘000 tonnes.....	28
Dynamics and forecast of sections consumption, ‘000 tonnes	28
Dynamics and forecast of plate consumption, ‘000 tonnes	28
Dynamics and forecast of coated flats consumption, ‘000 tonnes.....	28
Forecast of steel production, thousand tonnes	29
Dynamics and forecast of long products production, ‘000 tonnes.....	30
Dynamics and forecast of flat products production, ‘000 tonnes	30
Dynamics and forecast of rebar production, thousand tonnes	30
Dynamics and forecast of wire rod production, ‘000 tonnes.....	30
Dynamics and forecast of sections production, thousand tonnes	30
Dynamics and forecast of coated flats production, thousand tonnes	31
Dynamics and forecast of plate production, ‘000 tonnes.....	31
Jordan. Existing capacities and expansion plans	31
Jordan Steel production and deliveries	32
Iran. Existing capacities and expansion plans.....	33
Mobarakeh Steel production and deliveries.....	37
Qatar. Existing capacities and development plans.....	39

Qatar Steel production and deliveries	40
Lebanon. Existing capacities and development plans.....	40
UAE. Structure of long products domestic supplies.....	41
UAE. Existing capacities and development plans	41
Qatar Steel FZE rebar production and deliveries.....	44
Saudi Arabia. Existing capacities and development plans.....	45
Hadeed production and deliveries.....	46
Syria. Existing capacities and development plans	48
JoudCo Steel rebar production and deliveries	50
Share of import in long products consumption, %	51
Share of import in long products consumption, %	51
Dynamics of the regional imports, thousand tonnes.....	52
Dynamics of the regional exports, thousand tonnes	52
Existing import tariffs	52
Major suppliers of semis to the region, thousand tonnes.....	54
Major suppliers of long products to the region, thousand tonnes	54
Major suppliers of flat steel to the region, thousand tonnes	54
Import of semis, ‘000 tonnes	55
Export of semis, ‘000 tonnes	55
Iran. Balance of slabs market, million tonnes.....	55
Import of long products, ‘000 tonnes.....	56
Export of long products, ‘000 tonnes.....	56
Import of rebar, ‘000 tonnes	57
Export of rebar, ‘000 tonnes	57
Import of wire rod, ‘000 tonnes	58
Export of wire rod, ‘000 tonnes	58
Import of sections, ‘000 tonnes.....	59
Export of sections, ‘000 tonnes.....	59
Import of flat products, ‘000 tonnes	59
Export of flat products, ‘000 tonnes	60
Import of HR flat products, ‘000 tonnes.....	60
Export of HR flat products, ‘000 tonnes.....	60
Import of HR plate, ‘000 tonnes	61
Export of HR plate, ‘000 tonnes	61
Import of CR flat products, ‘000 tonnes	61
Export of CR flat products, ‘000 tonnes	62
Import of coated products, ‘000 tonnes	62
Export of coated products, ‘000 tonnes	62
Forecast of semis import, ‘000 tonnes	63

Forecast of long products net import, '000 tonnes	63
Forecast of rebar net import, '000 tonnes	63
Forecast of wire rod net import, '000 tonnes	64
Forecast of sections net import, '000 tonnes	64
Forecast of flat products net import, '000 tonnes	64
Forecast of HR plate net import, '000 tonnes	65
Forecast of coated flat products net import, '000 tonnes.....	65
Finished steel consumption by industry in 2009, thousand tonnes.....	66
GDP structure.....	66
Oil production, thousand barrels per day	68
Gas production, bcm. ft.....	68
Number of engineering companies having ASME certificates.....	70
Number of engineering companies having API certificates.....	71
Dynamics of motor cars production, '000 units.....	71
Import of main types of domestic appliances, mln. \$.....	72
Tube & pipe capacities, thousand tonnes.....	73
Import of pipes, '000 tonnes	73
Export of pipes, '000 tonnes	74
Forecast of average annual growth in the economic sectors of the countries.....	75
Steel consumption forecast by industry	75
Major drivers of the country's construction industry:	99
UAE. Pipe production capacities	102
UAE. Pipe capacity expansion plans	102
Saudi Arabia. Pipe production capacity	106
Saudi Arabia. Capacity expansion/construction projects.....	107
Qatar. Projects for natural gas processing to liquid fuel.....	111
Qatar. Projects for new LNG capacities	111
Characteristics of subsidiaries of National Iranian Oil Company (NIOC).....	114
Current projects of ISOICO	119
Iran. Pipe production capacities	122
Iran. Capacity expansion projects	122
Structure of the regional steel products consumption in 2009, '000 tonnes.....	123
Regional structure of rolled steel consumption in 2009, '000 tonnes.....	124
Forecast of long products net imports, thousand tonnes.....	127
Forecast of flat products net imports, thousand tonnes.....	128
Jordan. Forecast of basic steel products consumption, '000 tonnes	128
Jordan. Forecast of net imports, '000 tonnes	129
Iran. Forecast of basic steel products consumption, '000 tonnes	129
Iran. Forecast of net imports, '000 tonnes	129

Qatar. Forecast of basic steel products consumption, ‘000 tonnes	130
Qatar. Forecast of net imports, ‘000 tonnes	130
Lebanon. Forecast of basic steel products consumption, ‘000 tonnes	130
Lebanon. Forecast of net imports, ‘000 tonnes.....	131
UAE. Forecast of basic steel products consumption, ‘000 tonnes.....	131
UAE. Forecast of net imports, ‘000 tonnes.....	132
Saudi Arabia. Forecast of basic steel products consumption, ‘000 tonnes	132
Saudi Arabia. Forecast of net imports, ‘000 tonnes.....	133
Syria. Forecast of basic steel products consumption, ‘000 tonnes	133
Syria. Forecast of net imports, ‘000 tonnes	133

List of charts

Relation between steel consumption per capita and GDP per capita.....	13
Dynamics of steel consumption and production.....	18
Relation between GDP growth and share of oil industry in GDP in 2009	20
Relation between GDP (PPP) per capita and steel consumption per capita for all countries under research	23
Relation between GDP (PPP) per capita and steel consumption per capita for selected 3 countries	23
Forecast of steel consumption, '000 tonnes.....	26
Dynamics of the regional imports, thousand tonnes.....	52
Dynamics of the regional exports, thousand tonnes	52
Proved oil and gas reserves.....	69
Investment records per country.....	76
Some significant FDI projects	77
